With full knowledge of the above facts and warnings, the undersigned Tenant accepts and assumes all risks involved to Tenant and all of Tenant's guests in or related to the use of the community pool and patio areas.

No jumping or diving into the pool. Tenant and guests must follow all posted rules.

POOL HEAT IF APPLICABLE

This property offers gas heater service optional for an additional charge located in the property description. The temperature of swimming pools varies and highly depends on the current day and night temperatures and wind. Therefore, we cannot guarantee a particular pool temperature during the time of your stay. The optional pool heater service must be ordered and paid before our service personnel can turn it on. We suggest ordering pool heat a day before you want it. We will do our best to try to accommodate any late order AND the pool may take time to heat.

A pool may take several days to heat up and depends on the ambient temperature, water temperature, wind, rain and size of the pool. During or after periods of cold weather (esp. winter cold front) it may take longer or not really heat up until air gets warmer.

Pools consist of thousands of gallons of water. No commercially available pool heater can heat that much water instantly. Please plan ahead and also understand that pool heaters have limits on capability.

Fees:

- Minimum charge for pool heat is one week.

Disclaimer: No specific pool temperature is guaranteed by this service. We set pool heat between 84 and 86 degrees. During and after winter cold fronts, the heater may struggle or be unable to keep the water at the same temperature until the weather gets warmer. You pay for gas for the pool heater for a minimum of 8 hours to a maximum of 10 hours per day. The pool heater will be off during the night.

Without optional pool heat, pool water temperatures may plummet in December to March, especially during cold periods. The pool heater will help warm up the pool faster when it gets warmer outside, however you should not expect "bathtub temperatures" during or after Florida winter cold fronts.

Disclaimer: We reserve the right to make pool heat unavailable at any time for maintenance or repairs. In case of a technical malfunction, we will refund the pool heat charge for the time the heat service was not available to you. No further credit will be given if pool equipment fails or is unavailable for any reason.

We do not guarantee any specific temperature with pool heat service and no refunds can be provided.

Understanding pool heat:

The pool heater and circulation pump are usually running during daytime hours. Both are typically off at night. No water circulation or a red light at the equipment does NOT indicate any malfunction when the pump is off. Residential pool heaters are NOT run 24/7. Disclaimer: It is your responsibility to keep water level at the correct height between pool service visits. If water level gets too low (due to evaporation between pool service visits) the pool heater will NOT

work. During times of low precipitation or when the pool water is heated and higher than ambient temperature, evaporation may lower the water level to a degree where the circulation pump is sucking air. The correct water level is for the water to be halfway up the skimmer inlet (the open square box). Fill with the provided garden hose. Insufficient water levels can damage the pool heater and the pool filter and may cause both to stop working. You can easily notice the noise change for a pool that does not contain sufficient water. The pool heat cannot be set higher than that maximum temperature (86°F) in order to keep chemicals balanced. If you want a “hot” pool use the SPA, as these smaller pieces are equipped for higher temperatures. Swimming pools are NOT intended for higher temperatures. Setting a pool to a higher temperature would trigger additional maintenance (bi-weekly pool service, increase in chemicals usage, increase in electricity) which are NOT included in the pool heat fee.

IT IS VERY IMPORTANT THAT YOU NOT TOUCH ANY OF THE POOL EQUIPMENT. ONLY THE POOL GUY IS ALLOWED TO TOUCH THIS!

Combined a spa/pool:

If you would like to use the spa you will need to order pool heat otherwise, the spa won't heat up. During usage of the spa, the pool will not be heated. Switching between the pool/spa will trigger a protection pause for the heat pump. So using the spa will practically prevent the pool from being heated during that time. Since there is a pool automation system installed the temperature reading on the heat pump itself will not be accurate.

DISCLAIMER: Malfunction of the spa happens from time to time. Optional pool heat service is intended for pool heating, spa heating is just an additional benefit when purchasing pool heat. The spa will NOT be heated if pool heater service is not activated. Malfunction of Spa (Jets, blower etc) does not entitle for a refund For optional pool heater service as long as pool heater was working and available to heat the swimming pool.

Discounts:

Pool heat is a charge for gas usage and depreciation on the pool heater. Therefore, we cannot provide any discount or reductions on pricing for pool heat.

MAINTENANCE

Please report any maintenance needs for the premises to the us and we will respond as quickly as possible. Refunds will not be made for maintenance issues including, but not limited to heating and air conditioning, appliances, televisions, and pool issues. If you paid separately for pool heat and you don't have it, we will refund you for the pool heat you paid for covering those days you don't have it. We will respond to maintenance issues as quickly as we can, but please understand that some things such as service provider schedules and parts availability are beyond our control.

COMPLIANCE WITH ZONING RESTRICTIONS

This property is located in an area where short term rentals (less than six months and a day) are allowed but there are restrictions as to the frequency of those rentals. One lease may be written per 30-day period and for the purposes of complying with zoning, this lease constitutes a lease of at least 30 days. The county does not enforce how long a guest stays at a property rather, enforces that more than one lease isn't written within a 30 day period. If anyone is concerned, refer them to us.

LINENS/TOWELS/SUPPLIES/MATTRESSES

The owners furnish linens and towels. Any lost or damaged linens will be deducted from your deposit. An initial supply of paper products is provided. a matter of hours. If we discover a fresh stain during turnover, there will be an extra charge for rush mattress replacement.
